NE58K9430SS

5.8 cu. ft. Slide-In Electric Range

Features

- Dual Convection
- Slide-In Design
- Flexible Cooktop -- 5 Electric Elements
 - Two Dual Burners (9"/12", 6"/9")
 - Two Single Burners (6")
 - Warming Center (7")
- Glass-Touch Controls
- Large Oven Capacity: 5.8 cu. ft.
- Wide View Door
- Storage Drawer
- Hidden Bake Element
- Sabbath Mode

Convenience

- Self + Steam Clean
- Hot Surface Indicator Lights
- Auto Oven Light
- Proofing
- Kitchen Timer
- Delay Start
- Auto Shut-Off Option
- Child Safety Lock
- 3 Preset Easy Cook Options

Dual Convection

Flexible Cooktop

Available Color

Stainless Steel

Signature Features

DUAL CONVECTION

- Faster and more even cooking.
- Two fans circulate air throughout the oven.

SLIDE-IN DESIGN

- Blends seamlessly with your kitchen for a modern and built in look.
- Creates a high-end look without having to remodel.

FLEXIBLE COOKTOP

- Flexible 5 element cooktop with 2 double elements accommodates multiple pan sizes.
- 12"/9" and 9"/6" double elements allow for optimal placement and flexibility for various pots and pans.

SAMSUNG

NE58K9430SS

5.8 cu. ft. Slide-In Electric Range

Installing Your Range

30" minimum clearance between the top of the cooking surface and the bottom of an unprotected wood or metal cabinet; or 24" minimum when the bottom of the wood or metal cabinet is protected by not less than 1/4" flame-retardant millboard covered with not less than no.28 MSG sheet steel, 0.015" stainless steel, 0.024" aluminum or 0.020" copper.

** 18" minimum between the countertop and the adjacent cabinet bottom.

IMPORTANT: To eliminate the risk of burns or fire caused by reaching over heated surface units, cabinet storage space located above the surface units should be avoided. If cabinet storage is to be provided, the risk can be reduced by installing a range hood that projects horizontally a minimum of 5" beyond the bottom of the cabinets.

DIMENSIONS

Electric Ceramic Cooktop

- Right Front: 9/12", 3.0kW
- Left Front: 6/9", 3.0kW
- Right Rear: 6", 1.2kW
- Left Rear: 6", 1.2kW
- Warm Center: 100W

Oven

- Hidden Bake Element: 3000W
- Bake: 175°F - 550°F
- Convection Bake: 175°F - 550°F
- Convection Roast: 175°F - 550°F
- Broil (Low - High)
- Convection Element/Heater: 1250W
- Proofing
- Sabbath Mode
- Storage Drawer Capacity - 0.7 cu. ft.

Warranty

One (1) Year All Parts and Labor
Five (5) Years Electric Cooktop

CounterAttack LED

120V Portable / Linkable

Fixture

- 120v portable/hardwire
- 35,000 hour LED, 2,850k +/- 150k
- Dimmable with standard Incandescent dimmer (must meet minimum load of dimmer)
- Maximum of 120 LED light engines per power feed

Body

- Metal Construction
- Hinged, removable, UV coated, glass prismatic diffuser for maximum light distribution
- Trade-sized knockouts on back and top for through-wiring, wiremold, flex, romex or rigid conduit
- Internal connectors allow instant hardwiring without wire nuts
- On/Off switch
- UL/C-UL Listed for damp location

Finishes

- Bronze (BZ), Stainless Steel (SS) and White (WT)

EvoKit LED Retrofit Kits Gen 3

2'x2'

Project: _____

Location: _____

Cat.No: _____

Type: _____

Lamps: _____ Qty: _____

Notes: _____

Philips EvoKit LED Retrofit Kit is an energy efficient LED alternative to traditional linear fluorescent troffers. Not only does it offer energy savings¹, it also helps reduce maintenance costs due to its long lifetime. Simple construction helps decrease the installation time meaning you can have an LED solution in your ceiling in just minutes.

See footnotes on page 5.

EvoKit LED Retrofit Kit 2'x2'

Application

- A highly efficient, visually comfortable, architecturally styled LED retrofit kit designed to replace recessed linear fluorescent troffers.
- Unique modular design offers refreshing new look in the ceiling when compared to traditional fluorescent luminaires.
- Single light bar combined with slanted troffer helps reflect light to reduce glare and provide uniform light distribution making it ideal for applications such as offices, schools, healthcare and retail.
- Excellent color rendering with a CRI above 80.
- Extremely high efficacies up to 118 lumens per watt.
- LEDs are an excellent source for use with controls since dimming or frequent switching does not degrade the performance or life of the source.
- Designed for use with Standard Grid (NEMA "G") or Narrow Grid (NEMA "NFG") ceiling T-Grids.
- High efficiency source and luminaire design help significantly reduce energy consumption and more easily comply with known energy codes.
- Helps meet regulation requirements such as ASHRAE 90.1 and Title 24 when matched with suitable controls.

Construction/Finish

- Simple design allows for quick installation (under 4 minutes) in existing luminaire without the need to break the ceiling plenum.
- Constructed using galvanized steel which helps fight rust and makes for more durable product.
- Minimum depth of only 3" necessary to allow proper clearance and installation of the EvoKit.
- Retrofit kit is powder coated after fabrication with high quality, durable finish to ensure no unfinished edges and avoid future potential of corrosion.
- Components fit together easily without the need for tools during installation.

Electrical

- Multiple driver options available
 - 0-10V dimming satisfies universal voltage requirements.
 - Mark10 leading edge dimming offers ability to dim without pulling neutral wires making it compatible with more existing systems.
 - Step dimming to 40%.
- 5 year limited warranty includes all components of the retrofit kit, including driver, LED board and nonelectrical components."

- Listed with UL and Design Lights Consortium to ensure quality performance and safety standards are met.
- High efficiency LEDs have a minimum 70,000 hour rated life (L_{70}).

Enclosure

- Diffuser requires no frames or fasteners and can be easily removed from below without tools if needed.

Accessories

- Earthquake cables available for extra securement within the ceiling for areas prone to extreme conditions.
- Suitable for use with Philips 503441 emergency backup.
- Suitable for use with a wide range of control systems.
- Appropriate for new construction when used with standard listed lensed or parabolic troffers.

502575	EvoKit 2x2 Replacement Lens
503441	EvoKit Field Installed Emergency Battery Backup

EvoKit with new SimpleSet Technology for wireless lumen level programming

EvoKit with new SimpleSet Technology allows the maximum lumen level to be set prior to installation using a smartphone-based app without requiring power to the luminaire. Available in the 0-10V and SR versions only. The app can be downloaded at Google Play. Please contact your Philips representative for the current list of approved Android smartphones. Distributors can set lumen levels prior to shipping, and contractors can set lumen levels prior to installation. Lumen level is quickly and easily set in two steps:

Step 1: Place the smartphone next to the NFC antenna on the driver.

Step 2: Follow the on-screen instructions.

EvoKit LED Retrofit Kit 2'x2'

EvoKitSR with Xitanium SR for connected lighting solutions

EvoKitSR is a new platform that allows users to choose different control platforms to suit their needs and budget; from simple occupancy and daylight sensing to cloud-connected data-reporting sensing. This empowers users to fine-tune their energy use for reduced energy costs. Contact your Philips representative for a current list of approved sensors. Sensors are connected in the field with just a few simple steps:

Step 1: EvoKitSR is shipped with a plate covering the sensor hole. There are two wires secured to the back of the plate.

Step 2: The plate can be removed before or after you install EvoKit SR. Just gently slide the plate to one end and remove.

Step 3: Remove the two wires that were secured to the back of the plate.

Step 4: Take these two wires and insert them into the sensor. They are not polarity sensitive.

Step 5: Insert the sensor back into the hole. The sensor may or may not require a socket.

SpaceWise Technology 4.1 (SWZ) – To be purchased separately

- Optional SpaceWise automated wireless technology via the unique Philips Evokit SpaceWise Accessory provides integrated occupancy and daylight harvesting for additional control and energy savings. Requiring no system re-wiring, SpaceWise technology is ideal for retrofit applications.
- Occupancy and daylight sensors are integral to each luminaire. Luminaires in large rooms and open plan areas are grouped together up to a maximum of 50 using a handheld remote so room lighting turns on at first sign of occupancy.
- Upon first entry, grouped luminaires brighten up gently to a background level. Once occupants arrive at their workstations,

luminaires in the immediate area brighten up to full illumination and will dim down when no presence is detected. Grouped luminaires will dim to off when no presence is detected in the group.

- Daylight sensing is automatic and re-calibration occurs daily when luminaires turn on.
- The SpaceWise Accessory, when combined in the field with any standard 0-10 dimmable Evokit, will transform the kit into a SpaceWise-enable retrofit kit. There are two variations of the accessory, one for the Evokit 2x4 and on for the Evokit 2x2.
